MATH 7 · UNIT 3, LESSON 5 · TILE 2 · EXTRA PRACTICE

The Fraction Bar Means Divide: Extra Practice

The fraction bar is a division sign. One negative sign anywhere in a fraction makes it negative; two cancel. A rational number is one integer divided by another, never by zero.

Name: _____ Date: _____

1. 36 over −9

2. −40 over −8

3. Write −2/3 two other ways by moving the negative sign

4. Is (−7)/(−8) equal to −7/8?

5. Write −0.4 as a fraction of integers

6. Write 2 3/4 as a fraction of integers

7 Write −5 as a fraction of integers

8 9 ÷ 0
